To finish our Comenius two-year project, we went to Slovenia with our teachers and schoolmates from the European Section. We stayed in Venice one weekend before going to Slovenia. On 23<sup>rd</sup> May we organised a carpool from Marseille to the airport of Nice where we took the plane to Venice. Arrived in Venice, we were stunned by its beautiful landscape! During this week-end I stayed in a flat with my English teacher, the school librarian and my friends Marie-sophie, Ocean and Pauline the others shared another flat. During this week-end we visited Venice, had a gondola ride, and ate some delicious pasta. I was really happy to have the chance to visit the beautiful places of Venice during this very last Comenius trip!

Then, it was time to go to Krsko in Slovenia; we took the car and the train to get there. It was a really long time, but it was worth it. In Krsko I stayed one night in a flat, one night with a host family, two nights in a kind of school board in Tolmin and for the last night I slept in a hostel in Krsko. The staying in Tolmin was really nice because we were with all the students, so we spent most of the time together playing the guitar, singing, and having fun!

During this week, I did different activities like visiting the school, creating a short commercial about an amazing river in Tolmin, visiting some beautiful sites like Lipica, Kojak waterfall, Ljubljana, etc. We also attended a conference with a world aviator. My favourite activity was the bike ride with my schoolmates and teachers. It was a great unexpected moment!!!

The last night was Thursday night; we were at the Slovenian school for the farewell party. We did a quiz with questions about all the partner countries and some students played music as a concert to

say goodbye.

On Friday morning, it was time to go back to France, but when we arrived at the airport we discovered that our flight had been cancelled. It was a big surprise: both exciting and startling at the same time. The airline company offered us an additional stay in Venice for 4 days in an amazing 4-star hotel with pool, bar, sauna and much more...

I really enjoyed this trip; I'm glad that I had the chance to go to Slovenia and Venice. I met new people and learnt more about the different cultures in Europe.

This is the first place we visited in Slovenia for the first activity in a group: we had to shoot a small movie, with situations which we had chosen beforehand with our group. Next to this beautiful river, my role was to listen and dance on the music with one Bulgarian I hardly knew, we had fun!
